Help! It is broken! How do I fix it? If you are a performer, sooner or later you will need to make repairs on your props. Learn how to paint a prop, decorate a magic trick, glue felt on a table, attach a hinge, polish some coins, stencil a design, and cut a piece of wood. Do you know how to repair cracked plastic, choose the right wood putty, solder an electrical wire, or trim Formica? Perhaps you want to make a new clown gag, design and make a stand for your vent dummy, or repair a damaged prop. This jam packed hour-long teaching workshop by Illusion Builder Bruce Chadwick is full of tips, shortcuts, techniques, and ideas for the do-it-yourself performer. Whether you want to build your own props, make repairs, design a new idea, or choose the right tool, this workshop is for you! Also if you have a prop that needs repair and you need advice, bring it along and Bruce will take a look! See you there!

LAST MONTH'S FORT WORTH MAGICIANS CLUB INSTALLATION BANQUET, LEVENT PERFORMANCE, AND LECTURE A BIG HIT

In addition to its own Monthly Assembly Meeting at the Illusion Warehouse on the third Thursday of each month, the Bruce Chadwick SAM Assembly 138 Alliance of Illusionists also meets concurrently with the Fort Worth Magicians Club and the Ren Clark IBM Ring 15 on the first Thursday of each month.

Last month for January however, the Fort Worth Magicians Club chose the third Thursday of the month on January 19 to host their 2017 annual Installation Banquet and Show at Texas Wesleyan University. Therefore the SAM Assembly 138 did not have a January meeting or a January Servante newsletter.

Following a full Mexican dinner and the installation of the 2017 Fort Worth Magicians Club officers, LEVENT performed his full after dinner banquet show. Then the next day on Friday evening, he gave his full lecture. Levent was well received. The SAM Assembly 138 congratulates the new officers of the Fort Worth Magicians Club Inc and wishes them great success in 2017.
